conversion activities.¹⁰ The Agency also requested interviews with the individuals involved in the acquisition of those items, including two of the former Heads of the OHRC.

25. As previously reported, the Agency met in February 2006 with one of the former Heads of the OHRC, who had been a university professor at a technical university while he was Head of the OHRC.¹¹ The Agency took environmental samples from some of the equipment said to have been procured or used by the university, the results of
