About the Author		121

ACKNOWLEDGEMENTS

I would like to thank all those who assisted me in the present endeavor:

- The Israel Atomic Energy Commission, who granted me my sabbatical leave and, by financing the major part of my stay in Washington D.C., made this work possible;
- My kind hosts at the Institute for Science and International Security (ISIS), especially its President, Mr. David Albright, Mr. Kevin O'Neill, and Ms. Kathryn Buehler for their excellent editorial and publication work and suggestions. My discussions with them and their very useful comments did much to consolidate my thoughts on the subject matter of this work. They, alongside with their co-workers, Ms. Corey Hinderstein and Ms. Holly Higgins, provided a delightful and helpful working environment;
- Dr. Joerg Menzel, whose comments and thoughts assisted me greatly;
- Dr. Frank A. Gifford, Jr., for his kind and useful comments on the model calculations presented in Appendix 1;
- Col. (ret.) Shmuel Limone, who pointed out to me the very important UN literature on verification;
- The U.S. Library of Congress, that provided much of the relevant literature, both quoted and otherwise, essential for this work; and
- All those who knowingly and otherwise assisted me with their vast knowledge and ideas.

Finally, I have to acknowledge that this work runs contrary to the mainstream of thought concerning the status of verification of international nuclear nonproliferation obligations. I hope that it will help others to acknowledge the present state of affairs and to make an effort to improve it.

ACRONYMS APPEARING IN THE TEXT

ABACC	Argentine-Brazilian Agency for Accounting and Control of Nuclear Materials
CD	Conference on Disarmament
CTBT	Comprehensive Nuclear Test-Ban Treaty
CTBTO	Comprehensive Nuclear Test-Ban Treaty Organization
EMIS	Electromagnetic Isotopic Separation
EURATOM	European Atomic Energy Community
FFCD	Full, Final, and Complete Declaration
FMCT	Fissile Material Cutoff Treaty (proposed Treaty on the Prohibition of the Production of Fissile Material for Nuclear Weapons or other Nuclear Explosive Devices)
HEU	Highly Enriched Uranium
IAEA	International Atomic Energy Agency
IDC	International Data Center
IMS	International Monitoring System
INFCIRC	Information Circular
ISIS	Institute for Science and International Security
LOF	Locations Outside Facilities
MUF	Material Unaccounted For
NGO	Nongovernmental Organization
NTM	National Technical Means
NPT	Nuclear Non-Proliferation Treaty (Treaty on the Non-Proliferation of Nuclear Weapons)
NWFZ	Nuclear-Weapons-Free Zone
OMV	On-Going Monitoring and Verification
OPANAL	Agency for the Prohibition of Nuclear Weapons in Latin America
OSI	On-Site Inspection
PTBT	Partial Nuclear Test-Ban Treaty
SCCC	Common System for Accounting and Control of Nuclear Materials
TV	Threshold-of-Detection Value
UN	United Nations
UNDC	United Nations Disarmament Committee
UNMOVIC	United Nations Monitoring, Verification, and Inspection Commission
UNSC	United Nations Security Council
UNSCOM	United Nations Special Commission on Iraq
WAES	Wide Area Environmental Sampling
WMD	Weapons of Mass Destruction
