

SPEAKER BIOGRAPHIES

DAVID ALBRIGHT, a physicist, is President of the Institute for Science and International Security (ISIS) in Washington, D.C. He has written numerous assessments on secret nuclear weapons programs throughout the world. He has authored several analyses on North Korea's nuclear program and is a co-editor of and contributor to *Solving the North Korean Nuclear Puzzle*, published by ISIS Press in 2000. Albright co-authored *World Inventory of Plutonium and Highly Enriched Uranium, 1992* (SIPRI and Oxford University Press). A second, greatly expanded edition entitled *Plutonium and Highly Enriched Uranium 1996: World Inventories, Capabilities and Policies* was published in March 1997. He has served as a consultant to the International Atomic Energy Agency, Los Alamos National Laboratory, and the International Task Force on the Prevention of Nuclear Terrorism.

CARLOS FEU ALVIM is the Secretary of the Brazil-Argentine Agency for the Accounting and Control of Nuclear Material (ABACC) and chief Editor of *Economy and Energy - E&E* (<http://ecen.com>). He has previously served as an Assistant Professor and Researcher with the Department of Physics of the Federal University of Minas Gerais, Brazil. He has also been a Researcher with the Brazilian National Nuclear Energy Commission, of NUCLEBRAS, and of the Technological Center of Minas Gerais. He has also served as the Vice-Secretary for Planning of the Industrial Technology Secretariat of the Ministry of Industry and Commerce; as a Technical Advisor to the National Energy Commission; and as General Coordinator for Technological Development of the Science and Technology Secretariat of the Presidency of the Republic of Brazil.

ALFREDO BIAGGIO has been a Senior Officer for Planning and Evaluation at ABACC since the organization's creation in 1992. He participated in the negotiations of both the Bilateral Agreement between Argentina and Brazil and the Quadripartite Agreement among Argentina, Brazil, ABACC, and the International Atomic Energy Agency (IAEA). Prior to joining ABACC, Biaggio served as the Scientific Secretary of Argentina's Nuclear Regulatory Board. His work has encompassed matters related to radiation protection, nuclear safety, criticality prevention, safe transport, safeguards, and physical protection.

SEONGWHUN CHEON is a researcher with the Korea Institute for National Unification (KINU). His areas of specialization include conventional arms control, verification, proliferation of weapons of mass destruction (WMD), nuclear disarmament, nuclear deterrence strategy, missile defense, peace regime on the Korean peninsula, East Asian security, and Korean unification strategy. In 1994 he received an award of the Vice Premier and Minister of National Unification.

HOLLY HIGGINS is a Research Analyst at ISIS. Her main area of focus is nuclear nonproliferation and security on the Korean peninsula. She contributed several chapters to *Solving the North Korean Nuclear Puzzle*.

BYUNG-KOO KIM is the Vice President for Advanced Nuclear Technology Development Korea Atomic Energy Research Institute (KAERI), where he is also the Director of the Technology Center for Nuclear Control (TCNC).¹ Dr. Kim has been a staff member at KAERI since 1975, where he has held several senior positions. He is also a member of the Standing Advisory Group for Safeguards Implementation (SAGSI).

¹ Since the workshop, B-K Kim has left KAERI to take a position as Director of Technical Co-operation in charge of Asia, Pacific and Africa at the International Atomic Energy Agency.

TAEWOO KIM is a Senior Research Fellow at the Korea Institute for Defense Analyses (KIDA), where he has worked as a specialist in nuclear affairs. Prior to joining KIDA, he served as a research fellow at the Sejong Institute and the Research Institute of Peace Studies. He is the author of some 300 articles pertaining to security matters on the Korean peninsula and East Asia.

YO TAIK SONG is a Visiting Research Fellow at KAERI. He has a long and distinguished professional career, which includes senior and advisory positions both in Korean and U.S. academic institutions and government organizations. He served as a member of the U.S. team that negotiated the 1994 Agreed Framework and, during 1994 – 1997, he served as a technical advisor to the U.S. State Department on Agreed Framework Implementation issues. In this capacity he undertook numerous site visits in North Korea. Prior to joining KAERI in 2000, he served as a Visiting Scholar at the Sejong Institute, where he conducted research and analysis on U.S. and South Korean policies towards North Korea.
